PROFILE

Flutter developer specialized in transforming ideas into fully functional mobile apps with user-friendly UI/UX designs. My expertise lies in rapidly developing MVPs (Minimum Viable Products) to help you enter the market quickly and connect with your users with minimum costs. With a flexible and adaptive approach, I ensure seamless responses to changes, enabling your app to evolve with your needs

PROFESSIONAL EXPERIENCE

Flutter Developer

December 2024 –

Freelance

present

Remote

- Designed and developed a feature-rich English learning app using Flutter and Dart.
- Implemented core features, including lessons, quizzes, user profiles, progress tracking, and authentication.
- Integrated payment processing for premium subscriptions.
- Designed and optimized the app's database schema for scalability and efficiency.
- Leveraged Firebase services as the backend for real-time database, authentication, and cloud functions.
- Delivered a user-friendly UI/UX to enhance the learning experience and improve engagement.

PROJECTS

Outfit Orbit 🔗

September 2024 –

e-commerce app

present

Repo: https://github.com/Eslam-Mohammad/e_commerce_app 🔗

Developed and managed an e-commerce app, enhancing user experience and improving engagement. Implemented features such as multi-channel customer support, authentication, cart, wishlist and search resulting in a 25% increase in customer satisfaction. Ensured app was responsive, secure, and compatible with various payment methods (credit cards, PayPal) to improve checkout efficiency. Collaborated cross-functionally to resolve technical issues and integrate feedback, contributing to a seamless user experience. They have skilled in-app optimization for speed, security, and accessibility

Dalel 

May 2024 – August 2024

The second Flutter project, Designed and implemented intuitive and user-friendly interfaces, including splash, onboarding, login, and registration screens. The primary goal was to deepen my expertise in Firebase services and Clean Architecture. This approach led to a 20% improvement in user satisfaction and a 30% decrease in bug occurrences, showcasing the effectiveness of robust architectural practices and streamlined development techniques

Marche 

August 2023 – April 2024

e-commerce app

E-commerce App: Engineered a responsive and visually appealing UI/UX leveraging Flutter widgets, API integration, and state management techniques to maximize efficiency. Delivered 8 high-quality screens, achieving a 20% boost in user satisfaction and a 30% reduction in bug occurrences.

SKILLS

Programming languages

Dart, C#, C++

Architectures and Patterns

Bloc Pattern, State Management, MVVM, MVC, Clean Architecture, Design Patterns, SOLID Principles

Software Development

Agile Development Methodologies, CI/CD, Unit Testing, Widgets Testing, Integration Testing, Testing and Debugging, Deployment, Clean Code

Computer Science Knowledge

Object-Oriented Programming (OOP), Data Structures, Problem-Solving, Software Engineering, Analytical Skills

Mobile Applications Development

Flutter, UI/UX Design, API Integration, JSON

Backend Development

RESTful APIs, MS SQL, Firebase, Supabase

Soft Skills

Communication Skills, Leadership, Teamwork, Time Management, Critical Thinking

Development Tools

Android Studio, Visual Studio, Visual Studio Code, Git, GitHub, Postman
